

MDNET1S - ETHERNET TCP/IP CONVERTER

Seamless integration with your industrial serial devices and Ethernet TCP/IP network support RS-232/RS-485, and has a build-in terminator, making it fit for all types of industrial serial devices and serial communications topologies.

Feature.

Preserve your investment by instantly turning serial devices into intern devices that run on your existing software.

User password protection for configuration.

Configuration Web browser. (HTTP)

Support max 3 TCP Server port.

	Specification
LAN	10BASE-T/100BASE-TS port, 10/100M bps auto-sensing
TP port	RJ-45 phone jack
Protocol	TCP Server, TCP Client, UDP Server/Client, HTTP Server
Interface	RS232 / 485 (Auto-detecting)
Connector port	9 PIN D-SUB (RS232/485)
Parity	None, Even, Odd
Data bits / Stop bits	7, 8 / 1
Power supply input	8V to 15V DC
Dimensions (mm)	107W x 138H x 30D
